READING FOR THE FUTURE of the most attractive and varied kind is afforded by "Peterson's Magazine" for February. The numerous wood-illustrations are all of exceptional merit and the steel plate, "The Last Day at Home," is a very beautiful picture. The opening story "Lost and Found" is capitally illustrated, and the episode of the little wandering maid and her boy deliverer is well told. The two serials are among the best any magazine can offer. Edgar Fawcett has never written a more thrilling novel than "The Murder in Lafayette Place" and "Nicholas Cleaver's Money" is fully as interesting in an entirely different vein. The short stories and poems are every one worth reading, and the fashion and household department are at their very best. The number is admirable in every particular—on every respect superior to the handsome January number. One can depend on "Peterson" never allowing any falling off each month's issue as is so carefully prepared as it were to commence or end the volume and it is such through re-lease which has helped to give it so strong and wide a hold on popular favor.

THE FUTURE of the country of the future is the subject of a new book, "The Future of the Country," by J. H. Starnes, W. M. J. C. H. STARNES, Sec.

THE INTER-STATE LEAGUE.

Brown, of Peoria, Secretary and Treasurer. A \$600 forfeit to insure the staying qualities of each club was agreed upon, and it was also agreed that a \$500 guarantee should be given with a \$1200 a month salary limit. The Executive Committee consists of Fred Wahl, Jr., Quincy, Walter Viele, Evansville, John S. Lee, Peoria, E. A. Schaal, Terre Haute, Henderson Ridgely, Springfield. The Executive Committee met on Sunday to pass on the constitution and bylaws. Decatur was not represented at the meeting.

MUSICAL.
The justly famed Mendelssohn Quintette Club is to appear on Wednesday evening in one of their charming concerts, with Miss Ryan as the vocalist. The venerable Mr. Ryan in his card states "The Mendelssohn Quintette Club has always stood at the head of its class. I intend that the standard of excellence shall not be lowered in the future. I have made no change in the musical organization of the Club, by dropping the flute. Instead of the usual Flute Soloist, I have engaged a second Viola player, who also plays Violoncello. This improves the string ensemble and changes the repertoire. It enables us to play the Quintette written for two Violoncellos and provides a Basis for the Violoncello Solo."

Weak eyes and inflamed lids indicate an impure condition of the blood. The best remedy is Ayer's Sarsaparilla. It vitalizes the blood, regulates the secretions, and expels all scrofulous humors from the system. Try it. Price \$1.00. Worth \$5 a bottle.

THE GOTHAM ORATOR.

Hon. Daniel Dougherty, the distinguished Democratic lawyer and orator of New York, a member of the Tammany Hall political club, and a splendid looking man past 60 years of age, filled his engagement at the opera house Saturday night, delivering his interesting and highly entertaining lecture on "Orators and Oratory," under the auspices of the Decatur Lecture Course. He was introduced to the large audience with brief remarks by Hon. C. A. Ewing, and was received with unanimous applause. He spoke for one hour and forty minutes, but he might have gone on for two hours longer without tiring his auditors, whom he held enthralled with his masterly description, his vast fund of information, his pleasing mimicry of men of note, his clever stories, his laughable illustrations of his early experience as a struggling lawyer and political speaker, and his flights of eloquence which touched the hearts of all within the hall. Mr. Dougherty devoted about thirty minutes to a presentation of the different types of oratory as seen in the pulpit, on the stage and on the rostrum. He said the true orator must be a born orator, no learning or training can make him an orator. He must have the power to enkindle in the hearts of his audience the fire which burns in his own—the power to sway and carry his audience with him, and at all times he must use common sense and reason. Concluding the instructive part of his lecture, Mr. Dougherty devoted the remaining hour to illustrations of the styles of speaking in the House of Lords—Gladstone, Cairnes, Lord Beaconsfield, Stanley and others. Then he turned to Shakespeare and the pulpit, in which connection he gave the audience an illustration of his own great power as an orator and actor. During the varied illustrations the gentleman was often interrupted by applause. His peroration was a glowing tribute to the power of the truthful and conscientious press.

Mr. Dougherty is master of the English language and is recognized as a gifted orator wherever he is known. He had the honor of nominating Gen. Hancock for the presidency in 1880, and in 1888 he placed Grover Cleveland in nomination at St. Louis.

It was a privilege and a pleasure to hear him Saturday night.

A Forger Caught.
This afternoon Sheriff Maury nabbed a forger in short order and by the time he had got behind the bars he confessed his guilt. He first gave his name as E. C. Clark and presented a check signed by M. O. Glasgow for \$125 at J. M. Harkin & Co's bank for payment. Parke Hammer was satisfied that the check was spurious, and he quietly called in the sheriff to make the arrest without a warrant. It was done. It was found that the right name of the forger is James S. Wright, a young man who said that he had made an unsuccessful effort to get the \$125 on the forged check and that he will now have to suffer the consequences.

There will be no meeting of the Monday night dancing class this evening at Mrs. Sedgwick's rooms.

State Fair Specifications.
THE REPUBLICAN in the receipt of the specification of requirements for the location of the state fair for four years. They are easily within the reach of Decatur and should be seriously considered. If Decatur makes a formal bid she will have to furnish a bond in the sum of \$20,000, 60 acres of ground with fence 7 feet high, 600 open stalls for cattle, 700 open stalls for horses, 350 closed stalls, 350 pens for hogs, 250 pens for sheep, two exhibition halls in the shape of a Greek cross, two halls, 40x80 feet each, for the display of agricultural products and mechanical arts, small offices, a clock room, poultry shed, president's office, 10x32 feet, a large floored building for general headquarters, a half mile driving track 50 feet wide, two show rings, 80 tons of hay a year, suitable accommodation with grounds, plenty of water, suitable drainage, granaries, etc., etc. These provisions are not unreasonable. Let us make a creditable effort to get the fair. The specifications can be seen at this office.

The first meeting of the members of the Decatur Bible School and Sunday School Normal will be held in the lecture room of the First Presbyterian church to-morrow at 3 p. m. All who think of taking this course or are interested in Bible study and S. S. Normal work in this city are cordially invited to attend this meeting. J. L. PINKERTON, Principal.

The Boys and Girls.
The meeting for the boys and girls in the W. C. T. U. rooms Saturday afternoon at 2 o'clock was largely attended both by the children and parents, and a willingness expressed for an extended line of work. Mr. Kennedy spoke twenty minutes, and nearly one hundred children enrolled their names in a triple pledge against rum, tobacco and profanity. Another meeting will be held next Saturday at the same hour and place, to which all children are invited.

A large congregation assembled at the First M. E. church yesterday morning to hear Rev. James Miller on "The Moral Drift of Human Nature and its Arrest by Christianity." The evening discourse on "Subterfuges in Religion" drew a larger hearing, but the attendance was good, considering the storm. Both of these discourses were calculated to send Christians as well as sinners to thinking. Revival services every evening this week.

The friends of Chief Engineer Charles Hanel and bride, who have been mysteriously missing for about 10 days, will be glad to learn that they arrived safely by steamer at New Orleans on Saturday. The news reached Decatur by way of Springfield Saturday afternoon, coming to Chief Clerk LaBonta, of Supt. Stevens, office.

We have no hesitation in recommending Hall's Vegetable Sialian Hair Restorer as a sure cure for dandruff, and to restore the natural color of the hair.

A Decatur young lady desires a position as stenographer and typewriter with some business firm. Apply at this office 21-41.

"HOME COMFORT" FURNACES.

NO GAS, No Dust, Wrought Steel, Malleable Iron, Very Little Fuel, No Leaky Joints.

No one can say that the time was not ripe for a new furnace. The days of brittle, porous, cast iron furnaces are numbered. In every branch of manufacture cast iron is being driven out by wrought iron and steel. Every bridge that goes down in a wreck of lives and property is found to have cast iron members. Every bursting cannon which slays its friends rather than its enemies is made of cast iron. Every leaky furnace which poisons a household with its noisome gases is found to be made of the same cheap, unreliable material. Improved methods of manufacture have made steel and iron plate, of first quality, less expensive than cast iron formerly was, and it is plainly in accord with progress in other directions that there should be progress both in design and the material of furnaces for warming our homes, churches and schools.
